

HEARST HAS SOLE
RIGHT TO EMBLEMCourt Sustains Independence
League's Contention.

TAMMANY WILL APPEAL

Only Incorporated Political
Party in Country.

Officials of League Alone Can Authorize Use of Pair of Scales as Emblem on Independent Ticket. Murphy Confident of Hughes' Defeat—Hearst's Homestead Mine Is Now Under Investigation.

New York, Oct. 22.—The Independence League has won its fight against Tammany Hall in the matter of the use of the emblem of the league, which is a pair of scales. The decision of the board of elections today that Tammany cannot file independence nominations under this emblem is of far-reaching importance, and it is likely further to complicate the Democratic situation locally.

When the Independence League, which is probably the only incorporated political party in this country, announced that it was going to put its candidates in many of the Congress, Senate and assembly districts, the Tammany leaders undertook to head the league off. These leaders, or rather their candidates which had been regularly nominated in convention, began to circulate petitions among the league voters and some of them got the required number of signatures.

League Stopped Harrison.

Among those candidates was Francis Burton Harrison, who had been nominated for Congress. When he came to file his petition the question was raised by the league as to his authority to use the emblem. Counsel declared that only the executive committee, composed of Max Himm and a few other close friends of Mr. Hearst, could authorize the use of the emblem, and the contention of the lawyer has now been upheld.

The board then sanctioned the petition of H. B. Davis, the regular independence league candidate. This means that wherever the executive committee of the league stands for the petitioner, he will get the nomination, provided his petition is in legal form. This also means that the bitterness that now exists between Tammany as an organization and Mr. Hearst will be increased. The Tammany men do not admit that the decision of the board of elections is final, and they will take the case to the Supreme Court.

Mr. Hearst spoke to a great audience in Madison Square Garden to-night. Mr. Hughes, the Republican candidate for governor, started this afternoon for another speech-making tour up-State. He will not return until November 2, the Republican managers being satisfied with the situation in this city. Both the candidates are in good physically.

Murphy Still Confident.

Charles F. Murphy reiterated to-day his prediction that Hearst will be elected. He asserted he had received good reports from up-State and that Hearst would get many votes there. Mr. Murphy also declared that Kings County would give a plurality to Hearst.

The labor vote in the New York gubernatorial campaign has been thrown into the column of the uncertainty by a dispatch from Lewis S. D. today, which states that the Hearst homestead mine is a non-union corporation and works its men ten hours a day.

Republicans Gleeless.

Republican political managers commenting on the dispatch believe that if it is confirmed the homestead, from which the Hearst estate derives a large revenue, is antagonistic in Western fields to union labor. Hughes will have an even chance to carry New York city. The World dispatch says that only 76 of the 2,700 miners employed in the homestead belong to a union, and that for twenty-seven years it has been a non-union shop. Republican managers have been quick to lead for confirmation of all the statements made concerning the Hearst homestead mine.

Hearst Receives an Ovation.

Before some 10,000 people who packed Madison Square Garden to-night, Hearst, just returned from a ten days' tour up the State, proclaimed his conviction that he will carry New York State by 150,000 plurality.

Mr. Hearst received an ovation lasting twenty-two minutes. He devoted his speech to a recital of his record as showing his efforts to help the people.

He made a short speech, but he put into it more fire and spirit than has been characteristic of him. When he started off with the positive prediction that he would beat Mr. Hughes by over 150,000, the great crowd in the Garden rose en masse with a yell of delight. Mr. Hearst shot that optimistic prophecy at the crowd with all the go and ginger he could muster. All through his speeches he talked with the same energy and liveliness, storming and raging, stamping his feet on the stage, bending himself toward the crowd, and swinging his arms like flags. He was cheered from start to finish by an audience which seemingly was in entire sympathy with the man and his sentiments. When he roared Mayor McChesney and Jerome the audience, has become the fashion, grained and hoisted dimly. When he reviewed his fights against various corporations, the crowd broke out with wild applause. Perhaps the warmest response he evoked was when he referred to the last municipal election and shouted, as he swung his fists at the audience, "If it takes every dollar I have in the world, I will have those votes counted as cast."

Crowd Is With Him.

The crowd went back with him heartily, false, when he compared Leader Murphy, of Tammany Hall, with Senator McCarren, and said: "I have made no more of a deal with Murphy than I have with McCarren. McCarren is with McChesney (a voice: "Who let that yellow dog in?") for political reasons, and Murphy is against McChesney for political reasons, but neither one loves me and neither has reason to love me."

Hearst Made his Most Determined

BABBITT MAKES NO DEFENSE.

Man Accused of Forging Checks for \$50,000 Held for Trial.

New York, Oct. 22.—Arthur C. Babbitt, who was arrested on Saturday at his room in the Hotel Navarro on a charge of forging checks to the amount of \$50,000 on the Mutual Bank, was arraigned in the Police Court to-day. He waived examination, and was held for trial in \$20,000 bail by Magistrate Moss.

Charles A. Lockett, of the Mutual Bank, testified that the checks were made out to Babbitt, and signed William H. Wheeler, Capt. Wheeler, who lives at 66 West Fifty-first street, is an uncle of Babbitt's wife. He testified that his signature was forged. The prisoner offered no defense.

OIL PAINTING IS RECOVERED.

"Girl Knitting," Stolen in Cincinnati, Found in New York.

New York, Oct. 22.—A valuable oil painting, entitled "Girl Knitting," which was stolen from the art gallery in Eden Park, Cincinnati, on October 6, was recovered here to-day.

A young man who gave his name as Clarendon Henri was arrested when he attempted to dispose of the picture to a Fifth avenue dealer.

Henri told the police that the picture was given to him by a man in Berlin, Germany.

TO VISIT PORTO RICO

President Roosevelt Will Include Island on Trip.

ONE VISIT ON FOREIGN SOIL

First Time in History Executive in Office Has Left American Territory—Will Be Guest at Reception to Be Given by President Amador, of the Republic of Panama.

President Roosevelt yesterday decided to visit Porto Rico in November. He will make the voyage to San Juan from Panama, following his three days' inspection of the isthmian canal. His visit at the Porto Rican capital will begin Thursday evening, November 22, and last until the following evening.

Because of this side trip, the plans for the visit to the isthmus have been somewhat changed. Instead of leaving Cristobal, November 17, the President and Mrs. Roosevelt will return to the City of Panama to rest Sunday, and will embark on the battle ship Louisiana Sunday evening. Surgeon General Rixey, of the navy, will accompany them. Starting from San Juan Friday evening, November 23, the President expects to reach Washington the following Tuesday, almost a week before Congress assembles.

No reasons were given yesterday for the President's decision to visit Porto Rico, but it is known that he is much interested in the administration of affairs there. The insular government has met with some strong opposition, and of late, there have been evidences of popular discontent. Gov. Beckman Winthrop has planned for him by President Amador's visit to the isthmus, and has had many talks with the President about encouraging insular activity.

Lands at Cristobal.

The President has determined to remain under the American flag as much as possible on his trip. To this end he will land at Cristobal instead of Colon. Cristobal is within the Canal Zone, which is American territory, while Colon is just outside the zone. The only line the President will leave American jurisdiction, will be when he goes to President Amador's palace in Panama, for an official reception. The palace is only about a mile and a half from the zone line, and immediately after the official function President Roosevelt will return to the zone.

The President feels that he cannot go so near the Panama canal and refuse to accept the invitation extended by the President of the republic. The reception planned for him by President Amador cannot not be official if given within the zone. Hence, President Roosevelt will make an exception in this case. It will be the first instance where a President of the United States during his term of office has been under any flag other than that of the United States and upon a foreign soil.

It is not possible for the Louisiana, upon which the President will make the trip to the isthmus, to enter Cristobal, and he will accordingly land from a lighter.

Two Duck Hunters Drowned.

Chamberlain, S. Dak., Oct. 22.—Two young men—David Conway and Hubert Brown—lost their lives while duck hunting here to-day. While wading in the cold water, they became exhausted and sank before they could be rescued.

BURTON TAFT BOOMER

Secretary Will Be Present to Hear His Praises Sung.

FORAKER MEN DISCONCERTED

Hope of Ohio Senator to Get State's Support for Presidency Shattered by Taft Speaking in the Cleveland District—A Bitter Fight Among the Party Leaders in Buckeye State.

Special to The Washington Herald.

Cleveland, Ohio, Oct. 22.—Dick and Foraker men are in a panic at the prospect of a Taft Presidential boom, for the efforts to secure the State's support for the fight by the Senatorial forces to prevent Taft from securing Ohio's endorsement for the Presidential nomination.

The first round in the fight was won by Dick and Foraker in the State convention, but the efforts to secure the State's support for the fight by the Senatorial forces to prevent Taft from securing Ohio's endorsement for the Presidential nomination.

Taft's decision to speak here is a personal victory for the Congressman, whose efforts to secure the State's support for the fight by the Senatorial forces to prevent Taft from securing Ohio's endorsement for the Presidential nomination.

At the recent State convention the Dick and Foraker forces sought to make their victory over Burton complete. They ignored Taft in the platform. Pressure was brought on Chairman Sherman, of the Congressional committee, to keep Taft out of the State during the campaign.

These efforts marked the beginning of the fight by the Senatorial forces to prevent Taft from securing Ohio's endorsement for the Presidential nomination.

BURTON BEHIND BARS.

Former Senator Begins Serving His Six Months' Sentence.

Iron County Jail closed on former United States Senator J. R. Burton, of Kansas, at three minutes past 8 o'clock to-night. He was immediately ushered into a cell, which will be his home for six months, and introduced to James Wise, a former postmaster, who is serving nine months' sentence. The former Senator and former postmaster will be cellmates.

The Burton party reached Iron County shortly after 7 o'clock this evening, and went at once to the Smith Hotel for supper. Then came the parting.

Gathering his wife's little niece in his arms, the former Senator kissed them both affectionately, and told them to be of good cheer.

Mrs. Burton and little Dorothy Mitchell, the ten-year-old niece of the Burtons, will remain in Iron County during the former Senator's incarceration.

Several newspaper men accompanied the Burton party from St. Louis to Iron County. Mr. Burton treated them courteously, relating incidents of his political career, but was emphatic in refusing to discuss the troubles which led up to his conviction or the probability of his being pardoned.

HOLD TOWN AT BAY; ROB BANK

Five Bandits Work in James-Younger Style at Sawyer, N. D.

Secure Contents of Vaults, Fire Parting Shots, and Ride Away in the Darkness.

Sawyer, N. Dak., Oct. 22.—Like the raids of the James-Younger band of outlaws, was the work of five masked bandits who rode into this village at dawn this morning and seized the First State Bank, dynamited the safe, and escaped with \$4,500.

About 4 o'clock half a hundred citizens were aroused by the explosion, and hastened to the street. Here they were met by a volley of rifle bullets, fired by the watching guard, of three men. The citizens were commanded to stay where they were, and occasional shots were fired by the outlaws to show that they meant business. One hour was consumed in dynamiting and robbing the safe, and during all this time the citizens were powerless to interfere, fearing for their lives.

When the robbery was completed the bandits quickly dispersed in the darkness, after firing a volley at the town sheriffs, who were lined up on the street. An hour later they met a farmer jockeying into town and fired thirty shots at his wagon, one of them being obtained. More than a dozen banks and stores have been robbed in this vicinity within a week, and the whole country has been aroused.

SUNSET LIMITED WRECKED.

Thirty Negroes Injured, but Pullman's All Remain on Track.

New Orleans, La., Oct. 22.—The Sunset Limited, of the Southern Pacific, which left here at 11:35 o'clock to-day with a number of Eastern passengers bound for California points, was wrecked near Route Station, twenty-five miles west of here, at 1:30 this afternoon. Thirty persons were injured. All were negroes, except baggage-master Whistler, of New Orleans, who was slightly hurt.

The wreck was caused by the engine, baggage car, and forward day coach jumping the track through the rails spreading. The Pullmans and the other day coaches escaped.

The forward day coach was occupied almost entirely by negroes. They were thrown into a heap, and it is reported that the only fatality likely to occur will be that of a woman, who, it is feared, cannot recover from her injuries. The negroes were spattered with mud, and twenty of them were brought here to-night in a special train.

PALMA MEN QUIT OFFICE.

Prominent Figures During Recent Administration Caught Revolution.

Havana, Oct. 22.—Gen. Montalvo and Gaston Mora, secretary of public works and chief assistant, respectively, in the Palma cabinet, this afternoon presented their resignations as warden of the penitentiary and acting head of the government to Gov. Magallon. The government has not yet acted upon the resignations, but they will undoubtedly be accepted.

The acceptance of the resignations will retire from public life two of the most prominent figures in the Palma administration. Montalvo and former Secretary Andrade were right-hand men of Palma, and were chiefly responsible for the use of the force in the last election, which eventually caused the revolution.

Summons for James Gordon Bennett.

New York, Oct. 22.—James Gordon Bennett, proprietor of the New York Herald, has been summoned into the United States Circuit Court, having been indicted by the Federal grand jury on October 9 on a charge of sending improper matter through the mails. The case relates to the "personals" in the New York Herald.

A Steady Income Is Realized on all funds deposited in banking department, 144 F. st. Deposits subject to check at will. Savings accounts invited.

No coal, dust, or trouble. Sanitary heaters. Oil Radiators. Demonstrations, 29 9th st. nw.

NEW YORK "LIP" IS ON. Gambling Resorts and Poolrooms Are Rightly Closed.

New York, Oct. 22.—The Tenderloin was closed up tight to-night. According to the wise ones, it was the greatest frost that has descended on the gambling and poolroom plants in the memory of the oldest lookout. Not a wheel turned, not a card slipped out of the box along the whole line, and during the day it was as hard to place a bet along Sixth avenue in the latitude of the thirties as it would be to raise enthusiasm with a third-party political meeting.

Lightship Carried Away.

Charleston, S. C., Oct. 22.—The Flying Pan lightship, which parted its moorings off the North Carolina coast in the storm on Saturday, was towed into port to-day. She had been carried down the coast, and was beating her way back under her own sail when she was taken in tow by the tender Wistarla. The lightship will be towed back to her station.

AMERICANS IN MEXICAN JAIL.

Brothers Arrested with Alleged Revolutionists in Juarez.

El Paso, Tex., Oct. 22.—It developed to-day that in the wholesale arrest of alleged revolutionists in Juarez, across the river from El Paso, El Fago, and Cruz Arroyo, American-born citizens were taken and thrown into jail.

They went to Juarez Friday night to summon a Mexican physician to attend their sister, Elena Ronquillo de Pinos. The woman was in a dying condition and expired Saturday morning. The funeral was held to-day without the brothers being present.

The family is a noted one, the father, Dr. Ronquillo, being a well-known physician and lawyer, a naturalized citizen of the United States. When it was learned that the brothers had been arrested work was immediately begun by friends to secure their release.

ANNA HELD LOSES \$280,000.

Affable Stranger Relieves Actress of Grip Full of Jewels.

Cleveland, Ohio, Oct. 22.—Anna Held reported to the police this morning that as she was entering Cleveland on a Pennsylvania train she was robbed of a satchel containing \$280,000 worth of diamonds and other jewelry.

The police investigated and found the robbery was not wholly a press-agent dream, but they failed to locate the thief. The satchel containing the jewels had been placed by Miss Held on a rack in her stateroom. At the Woodland avenue station an affable stranger stepped to the door and asked permission to remove his valise from a rack overhead. It is supposed he stole the jewels. To-night Miss Held hesitated about appearing at the opera house. She cried all day, and her eyes and nose "were a sight," as she expressed it.

REPRIEVE FOR MRS. MEYERS.

Woman and Accomplice Given Reprieve at Request of Justice Brewer.

St. Louis, Mo., Oct. 22.—Mrs. Aggie Meyers and Frank Hoffman, under sentence to be hanged at Liberty, Mo., October 26 for the murder of Mrs. Meyers' husband nearly two years ago, were reprieved by Gov. Folk to-day until December 1. The reprieve was granted on the request of United States Supreme Court Justice Brewer, to give the Federal Supreme Court time for review of the case.

DONKEYS MOCK AUTOISTS.

Spaniards Riding Them from Madrid for Paris.

Bordeaux, Oct. 22.—Two well-known residents of Madrid, Senores Crusellas and Bueno, have arrived here from that city on their way to Paris. They are making the trip on donkeys as a protest against the excessive speeding of automobiles, and they have named their donkeys after prominent auto manufacturers. They carry banners with the inscription: "Donkeys are better than automobiles."

They have already narrowly escaped being run down by automobiles, and were apparently incensed by the banners. They hope to reach Paris on November 30 unless they are run over by speeders or the donkeys die of fatigue.

STORM SWEEPS WEST

Blizzard Rages from Rockies to Missouri River.

FEAR A GREAT LOSS OF LIFE

Twenty Inches of Snow Falls in Denver, and Railroads in Mountains Are Tied Up—Cattle and Sheep Raisers Suffer Heavy Financial Loss—Drifts Nine Feet Deep.

Denver, Colo., Oct. 22.—Caught without warning in the terrific snowstorm that has swept the entire section of the country between the Rocky Mountains and Missouri River, it was reported to-day that many lives probably were lost in the storm, and that the cattle and sheep raisers' financial loss as a result of the perishing of their stock will be heavy.

The storm is the most severe that has struck this section at this time of the year since 1885, and the reports indicate that it may even exceed the one that caused such heavy damage twenty-one years ago.

In this city twenty inches of snow had fallen at 6 o'clock to-night, but the snow melted and does not delay traffic to any extent. In outlying sections, however, all traffic is tied up, and the railroads are having a difficult time moving trains.

At Emery Gap, on the Colorado and Southern Railroad, the drifted snow is nine feet deep, and all railroad traffic is tied up to-day. The mail coach and two baggage cars on a Santa Fe train jumped the track between Wagon Mount and Springer, N. Mex., and rolled down an embankment. The mail clerk was injured in the accident.

Communication Is Cut Off.

Kansas City, Mo., Oct. 22.—In Kansas City the storm has been unusually severe, and all railroad traffic has been delayed. Communication with points west of Ellis, Kansas, was cut off completely for almost a day. The railroad service between Salt Lake City and Ogden is utterly discontinued. The terrific wind on Saturday night and Sunday morning tore down telegraph poles, and the dispatching of trains was almost impossible.

Thirty freight cars of the Oregon Short Line were blown off the track near Woods Crossing, and two passenger coaches on the Salt Lake and Ogden Railroad were blown from the track near Centerville. The conductor of the train and two passengers were injured.

The addition to the snow of the swift wind and snow in Salt Lake City. The new plant of the Utah Packing Company was destroyed by fire.

All western Kansas has been tied up by the blizzard, which is passing East. In the mountainous regions, huge snowdrifts have blocked the railroad tracks, and it is not known when the tracks will be cleared. The strong wind also uprooted thousands of trees, which were laid down across the tracks, and will add to the difficulty of clearing the way for the running of trains.

Frame houses were destroyed by the hundreds in the blizzard, and practically every house in process of construction was damaged. The worst losses by the blizzard, however, it is believed, are the cattle raisers. The storm took the live stock owners unawares, and thousands of head of cattle perished before they could be driven to safe retreats.

The late fruit crop also has suffered in many farmers, who expected to reap such harvests, will be disappointed.

Lives Lost in Cuba.

Havana, Oct. 22.—Immense destruction of property and considerable loss of life are reported in messages to-day telling of the ravages of the recent hurricane in the district, which had not hitherto been heard from.

At San Antonio de Los Baños, twenty-one miles from Havana, several lives are known to have been lost. Scores of buildings were ruined and property generally damaged. The Yaguajayabo River overflooded its banks, causing a great portion of the loss.

The whole river valley is inundated, and the further reports are expected to increase the estimates of losses. At Batabano today's reports show that the loss was even greater than was first stated.

Lightship Carried Away.

Charleston, S. C., Oct. 22.—The Flying Pan lightship, which parted its moorings off the North Carolina coast in the storm on Saturday, was towed into port to-day. She had been carried down the coast, and was beating her way back under her own sail when she was taken in tow by the tender Wistarla. The lightship will be towed back to her station.

PANIC IN THEATER
MOBBED BY NEGROES

Press Agent's Appeal to Race
Prejudice Too Effective.

POLICE CLUBS WIN FIGHT

Postal Cards Urge Colored Population to Stop Play.

Ministers Appeal to Mayor Weaver to Prevent "The Clansman" from Being Produced in Philadelphia, and Theater May Be Closed—Negro, Thrown Out of Gallery, Starts Attack, but the Police Check Mob.

Philadelphia, Oct. 22.—Rioting by thousands of negroes was caused to-night by efforts of the press agent of Thomas Dixon's play, "The Clansman," to draw attention to the theater.

Before it was ended panic reigned inside the Walnut Street Theater, where the play was on. Car service to the center of the city was stopped, windows were broken, and a score or more of blacks were badly beaten. Several went to hospitals and a number were arrested and afterward released.

Pursuing the usual policy of the management, race prejudice had been appealed to for a week past. A committee of ministers called on Mayor Weaver to-day to protest against the play being given, and during the afternoon thousands of post cards were sent to the 6,000 negroes in the black belt, calling on them to march on the theater to-night and stop the play by force. Recent lynchings in the South were attributed to it.

At 7 o'clock several hundred negroes had gathered. By 8 there were 3,000 filling the streets, and two squads of reserves from city hall had all they could do to protect the theater-goers. It was not long after the curtain went up that a fight began in the gallery, and down into the street came a negro his head and face streaming with blood.

"Rush the theater!" the mob cried, but just then a hundred more police charged on the blacks and the battle began.

While it was at its height and police were beating over the heads of the thronging negroes, Director of Public Safety McKinley rushed through and gained the theater stage. He managed to stop the fight, and called three black ministers out of the mob. After a short time it was announced that steps would be taken to-morrow to stop the play. After this announcement the crowd began to melt away.

It is probable that the press agent will be arrested for inciting to riot. Considerable property damage was caused by stones, and hardly a handful remained inside to see the play.

CLOSE RACE ACROSS OCEAN.

Minnetonka, by Spurt On Sandy Hook, Wins from the Finland.

New York, Oct. 22.—In an ocean race of more than 3,000 miles, the steamship Minnetonka, of the Atlantic Transport Line, reached Sandy Hook Lightship to-day a little in the lead of the Finland, of the Red Star Line. It was a remarkable contest, both ships being within wireless communication of each other all the way, although each out of sight of the other. In and out of the wind, the Minnetonka sailed on October 12, and encountered heavy weather
